

F. ASSOCIATION RULES – EQUALITY POLICY

British Gymnastics subscribe to the principles of equality of opportunity and strives to ensure that anyone participating or wishing to participate in gymnastics is able to do so in a discrimination-free environment. British Gymnastics also advocate that all those involved in the sport must always comply with the principles of accepted moral and ethical frameworks and exemplary standards of conduct and everyone be treated fairly.

The Equality Policy is based on the following fundamental principles:

- i. All persons must respect the rights, dignity and worth of every human being and their right to self-determination.
- ii. All staff, members, volunteers and job applicants are entitled to be treated fairly regardless of gender, sexual orientation, age, parental or marital status, disability, religion, colour, race, ethnic or national origins, or socio/economic background.
- iii. Equity must permeate throughout strategic and development plans.
- iv. All participants should be afforded equal opportunity to access to services.
- v. In some cases, positive action may be required to address past inequalities or under-representation.
- vi. It is everyone's responsibility to ensure that no form of discrimination is tolerated in our organisation.
- vii. Any individual who believes they have received unfavourable treatment within the scope of the policy should raise the concern in line with the BG Complaints Procedure.
- viii. No individual (and/or their family) who raises a concern in good faith should be treated unfairly as a result of raising the concern.

RESPONSIBILITIES

The Equality Policy has been designed to ensure that no job applicant, employee, volunteer, participant or member will receive less favourable treatment on the grounds of age, gender, colour, race, religion, sexual orientation, ethnic origin, creed or disability, or will be disadvantaged by conditions or requirements that cannot be shown to be reasonable or relevant.

British Gymnastics recognise that some sections of society have been denied opportunity to access or participate fully in sport and wish to implement a policy that ensures that everyone is treated fairly and avoid practices that could discriminate directly or indirectly towards certain sections of society. In order to achieve equality, British Gymnastics recognise that in some instances, unequal distribution of effort and resources may be required. This may be necessary when sections of society are faced with barriers that prevent or restrict their participation in gymnastics. British Gymnastics support the need for additional effort to identify and alleviate any barriers to participation.

British Gymnastics strive to ensure that our sport is free from discrimination. We endeavour to promote the highest standards and will:

- Provide and implement a policy to protect participants from discrimination
- Encourage individuals from all communities to become involved at any level of participation, coaching, officiating and management.
- Adopt good practice in recruitment, training and supervision of all employees and volunteers, and provide guidance to our affiliated organisations.
- Require affiliated organisations to adopt either British Gymnastics' Equality Policy or similar.
- Ensure that best practice is extensively promoted and expect all clubs and members to follow the guidelines set down by the governing body
- Work in partnership with the Home Country affiliated organisations to implement the policy across the UK and review progress.
- Respond to all concerns, and implement the appropriate disciplinary and appeals procedure.

Inequality will be avoided: -

- When selecting, recruiting and training individuals.
- In the structure and content of all syllabi, examinations, regulations and assessment procedures.
- In the monitoring of practices, procedures and data relating to the operations and activities of the association and its affiliated bodies.
- In the preparation and distribution of all materials and publications.
- By the relaxation of any conventional rules and regulations which serve to inhibit the performance of those candidates with special needs or disabilities, providing that such action does not have detrimental effect on the standard, quality and integrity of the regulations.

DISCRIMINATION, HARASSMENT AND VICTIMISATION

Discrimination can and does occur in a wide range of situations, including within a sporting environment. The effects of discrimination can be extremely damaging. Discrimination takes the following forms:

Direct Discrimination: - Treating someone less favourably than you would treat others in the same circumstances.

Indirect Discrimination: - An action that indirectly affects a group or individual. Some requirements or condition if applied equally can have disproportionate and detrimental affect on one or more sectors of society, because it may be difficult or impossible for that section of society to fulfil the requirement.

Harassment: - An action or comment that causes persistent offence to an individual or group. It may be directed towards people because of their gender, appearance, race, colour, ethnic origin, nationality, age, sexual orientation, a disability or some other characteristic.

Victimisation: - Treating a group or individuals in a detrimental way because they have made or intend to make a complaint or provide evidence in support of another complaint.

British Gymnastics regard discrimination, harassment or victimisation, as a serious issue and staff or member who following disciplinary procedures is found to have discriminates against, harasses or victimises any other person will be severely reprimanded.

IMPLEMENTATION PROCEDURES

The purpose of the British Gymnastics' Equality Implementation plan is to improve opportunities for all sections of society to access Gymnastics and try to prevent discrimination in our sport. The Implementation plan sets out how British Gymnastics will work towards the "UK Equality Standard for Sport", developed and endorsed by the five Sport Councils and the various sport equality organisations.
